\* Haddyween is a safe and prehistoric-themed Halloween event celebrating the New Jersey State Dinosaur, Haddonfield's own Hadrosaurus Foulkii. It was the first nearly complete dinosaur skeleton to be discovered virtually intact anywhere in the world. It was unearthed in October, 1858, in a marl pit in Haddonfield, just a few blocks from where you are sitting right now. **To find out more about all Haddyween events, visit: <https://www.opensouthjersey.com/haddonfield>**

Hadrosaurus T-shirts are available. Ask your server for details.
